 - **Jira/Confluence:** Some time got some research work and write all the details like documentation in **confluence** and update current working state in **Jira**.

PROJECTS

- **Code Radar -: Coding Contest Tracking Application:** source code
 - Developed an app for coding enthusiasts to Keep Track Of All The Coding Competition Happening On Some Of The Biggest Coding Platform.
 - Implemented **Room Database** as back-end.
 - Implemented Social media Integration for login/signup using Firebase.
 - Technology Stack :- **Android ,Room, Retrofit, Navigation Component , Glide , DataBinding, FireBase**
- **7 Minute Workout App:** source code
 - Designed An Android Application where user can perform a quick fit workout
 - User can Track their workout History and Can calculate BMI.
 - Used **Room Database** For Backend.
 - Technology Stack :- **Android , Room Database,Glide , DataBinding**

COURSES

- **The Complete Android 11 Jetpack Bootcamp for 2021**
May 2021 – August 2021 — Udemy — **Certificate**
- **The Comprehensive 2021 Android Development Masterclass**
Jan 2021 – July 2021 — Udemy — **Certificate**
- **IT Fundamentals for CyberSecurity**
Jan 2022 – July 2022 — Coursera — **Certificate**

CODING PROFILES

- Leetcode :- **roopkm**
- Hackerrank :- **roopkm12**

ACHIEVEMENTS

- 100+ Questions Solved on **LeetCode , GeekForGeeks , Hackerrank**
